Condensed Interim Consolidated Financial Statements (Expressed in U.S. Dollars)

Three Months Ended March 31, 2012

(Unaudited)

#### Management's Responsibility for Financial Reporting

The accompanying unaudited condensed interim consolidated financial statements of China Education Resources Inc. were prepared by management in accordance with IAS 34 *Interim Financial Reporting* using accounting policies consistent with International Financial Reporting Standards appropriate in the circumstances. Management acknowledges responsibility for the preparation and presentation of the unaudited condensed interim consolidated financial statements, including responsibility for significant accounting judgments and estimates and the choice of accounting principles and methods that are appropriate to the Company's circumstances.

Management has established processes, which are in place to provide them sufficient knowledge to support management representations that they have exercised reasonable diligence that (i) the unaudited condensed interim consolidated financial statements do not contain any untrue statement of material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it is made, as of the date of and for the periods presented by the unaudited condensed interim consolidated financial statements fairly present in all material respects the financial condition, results of operations and cash flows of the Company, as of the date of and for the periods presented by the unaudited interim consolidated financial statements.

The Board of Directors is responsible for reviewing and approving the unaudited condensed interim consolidated financial statements together with other financial information of the Company and for ensuring that management fulfills its financial reporting responsibilities. An Audit Committee assists the Board of Directors in fulfilling this responsibility. The Audit Committee meets with management to review the financial reporting process and the unaudited condensed interim consolidated financial statements together with other financial information of the Company. The Audit Committee reports its findings to the Board of Directors for its consideration in approving the unaudited condensed interim consolidated financial statements together with other financial information of the Company for issuance to the shareholders.

Management recognizes its responsibility for conducting the Company's affairs in compliance with established financial standards, and applicable laws and regulations, and for maintaining proper standards of conduct for its activities.

### Notice to Reader

Under National Instrument 51-102, Part 4, subsection 4.3(3)(a), if an auditor has not performed a review of the condensed interim consolidated financial statements; they must be accompanied by a notice indicating that the financial statements have not been reviewed by an auditor.

The accompanying unaudited condensed interim consolidated financial statements of the Company have been prepared by and are the responsibility of the Company's management.

The Company's independent auditor has not performed a review of these unaudited condensed interim consolidated financial statements in accordance with standards established by the Canadian Institute of Chartered Accountants for a review of condensed interim consolidated financial statements by an entity's auditor.

Cash at the end of the period	\$ 442,399	\$ 478,789

(The accompanying notes are an integral part of these consolidated financial statements)

### **1. Reporting Entity**

China Education Resources Inc. ("the Company") is a company domiciled in Canada. The address of the Company's registered office is Suite 300, 515 West Pender Street, Vancouver, B.C., V6B 6H5. The consolidated financial statements of the Company as at and for the period ended March 31, 2012 comprise the Company and its subsidiaries (together referred to as the "Group"). The Group provides an education internet portal with educational content, resources and training programs to users in People's Republic of China ("China") and distributes educational textbooks and materials developed by the Group to bookstores and schools in China.

### 2. Basis of Preparation

### (a) Statement of compliance

These condensed interim consolidated financial statements have been prepared in accordance with IAS 34 Interim Financial Reporting. It does not include all of the information required for full annual financial statements, and should be read in conjunction with the Group's audited consolidated financial statements for the year ended December 31, 2011.

The policies applied in these condensed interim consolidated financial statements are based on IFRS issued and current as of May 30, 2012, the date the financial statements were authorized for issue by the Board of Directors. Any subsequent changes to IFRS that are given effect in the Group's annual financial statements for the year ending December 31, 2012 could result in restatement of these condensed interim consolidated financial statements.

### (b) Basis of measurement

The consolidated financial statements have been prepared on the historical cost and going concern basis, which presumes that the Group will be able to realize its assets and discharge its liabilities in the normal course of business. In assessing whether the going concern assumption is appropriate, management takes into account all available information about the future, which is at least, but is not limited to, twelve months from the end of the reporting period. Management is aware, in making its assessment, of material uncertainties related to events or conditions that may cast significant doubt upon the entity's ability to continue as going concern as described in the following paragraph. Accordingly, they do not give effect to adjustments that would be necessary should the Group be unable to continue as a going concern and therefore be required to realize its assets and liquidate its liabilities and commitments in other than the normal course of business and at amounts different from those in the accompanying consolidated financial statements.

The Group has a need for financing for working capital, development and updating its education internet education portal. Since inception, the Group has incurred cumulative losses of \$30,972,947 and a working capital deficiency of \$1,143,556 at March 31, 2012. The ability of the Group to continue as a going concern is dependent upon the acceptance of the education internet portal by the users to achieve a profitable level of operations by the Group and on the ability of the Group to obtain necessary financing to fund the Group's future business plan. The outcome of these matters cannot be predicted at this time.

### 2. Basis of Preparation - Continued

#### (c) Functional and presentation currency

These consolidated financial statements are presented in U.S. dollars, which is the Group's reporting currency. The Company's functional currency is Canadian dollars in Canada and the functional currency of the Company's subsidiaries in China is Chinese Renminbi ("RMB").

#### (d) Use of estimates and judgments

The preparation of the consolidated financial statements in conformity with IFRSs requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. On an ongoing basis, management evaluates its judgments and estimates in relation to assets, liabilities, revenues and expenses. Management uses historical experience and various other factors it believes to be reasonable under the given circumstances as the basis for its judgments and estimates. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

Significant assumptions about the future and other sources of estimation uncertainty that management has made at the statement of the financial position date, that could result in a material adjustment to the carrying amounts of assets and liabilities, in the event that actual results differ from assumptions made, relate to, but are not limited to, the following:

- The recoverability of accounts receivables and prepaid expenses which are included in the statements of financial position;
- The estimated useful lives of equipment which are included in the statements of financial position and the related depreciation included in the statements of comprehensive income(loss);
- The estimated value of the deferred development costs which is recorded in the statements of financial position;
- The inputs used in accounting for share-based payments expense in the statements of comprehensive income (loss);
- The composition of deferred tax assets and liabilities included in the statements of financial position and notes to the consolidated financial statements;
- The inputs used in determining the various commitments accrued in the statements of financial position.

### 3. Group entities

Significant subsidiaries

		Ownership interest					
	Country of	March 31,	December 31,				
Name of subsidiary	incorporation	2012	2011				
CEN China Education Network Ltd. ("CEN Network")	Canada	100%	100%				
China Education International Inc.	BVI	100%	100%				
CEN China Education Overseas Corporation	BVI	100%	100%				
CEN Smart Networks Ltd. ("CEN Smart")	China	100%	100%				
Today's Teachers Technology & Culture Ltd. ("TTTC")	China	100%	100%				
The Winning Edge Ltd. ("TWE")	China	100%	100%				
Zhong Yu Cheng Yuan Education Technology Ltd. ("ZYCY")	China	60%	60%				

The Company, through its China subsidiary The Winning Edge Ltd., acquired the remaining 10% equity ownership of its China subisidiary, CEN Smart Networks Ltd. ("CEN Smart") for a nominal value on September 26, 2011 resulting in a 100% equity ownership of CEN Smart. Through CEN Smart, the Company now has an effective ownership of 100% and 60% equity interests in its China subsidiaries, TTTC and ZYCY, respectively. The transaction was accounted for as an equity transaction and the non-controlling interest was adjusted to reflect the changes in the interest in CEN Smart.

### 4. Significant Accounting Policies

The preparation of financial data is based on accounting principles and practices consistent with those used in the preparation of the audited annual financial statements as at December 31, 2011. The accompanying unaudited condensed interim consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements for the year ended December 31, 2011.

### 5. New standards and interpretations adopted during the period

The Group adopted the following new standards during the period:

### IAS 12 - 'Income Taxes' - Amendments Regarding Deferred Tax: Recovery of Underlying Assets

On January 1, 2012, the Company adopted *IAS 12 - 'Income Taxes' - Amendments Regarding Deferred Tax: Recovery of Underlying Assets.* These amendments are a practical approach for the measurement of deferred tax relating to investment properties measured at fair value, property, plant and equipment and intangible assets measured using the revaluation model. The measurement of deferred tax for these specified assets is based on the presumption that the carrying amount of the underlying asset will be recovered entirely through sale, unless the entity has clear evidence that economic benefits of the underlying asset will be consumed during its economic life. Adoption of the standard did not have a material impact on the financial position of the Company.

### 6. New standards and interpretations not yet adopted

The Group has reviewed new and revised accounting pronouncements that have been issued but are not yet effective and determined that the following may have an impact on the Group:

### IFRS 9 "Financial Instruments – Classification and Measurement"

IFRS 9, Financial Instruments, was issued in November 2009 and addresses classification and measurement of financial assets. It replaces the multiple category and measurement models in IAS 39, Financial Instruments – Recognition and Measurement, for debt instruments with a new mixed measurement model having only two categories: amortized costs and fair value through profit or loss. IFRS 9 also replaces the models for measuring equity instruments. Such instruments are either recognized at fair value through profit or loss or at fair value through other comprehensive income. Where equity instruments are measured at fair value through other comprehensive income, dividends are recognized in profit or loss to the extent that they do not clearly represent a return of investment; however, other gains and losses (including impairments) associated with such instruments remain in accumulated comprehensive income indefinitely. Requirements for financial liabilities were added in October 2010 and they largely carried forward existing requirements in IAS 39, Financial Instruments - Recognition and Measurement, except that fair value changes due to credit risk for liabilities designated at fair value through profit and loss would generally be recorded in other comprehensive income. In January 2012, the effective date was revised to January 1, 2015 with earlier application permitted.

### IFRS 10 "Consolidated Financial Statements"

In May 2011, the IASB issued IFRS 10 *Consolidated Financial Statements*, which is effective for annual periods beginning on or after January 1, 2013, with early adoption permitted. IFRS 10 replaces the guidance in IAS 27 *Consolidated and Separate Financial Statements* and SIC-12 *Consolidation – Special Purpose Entities*. IAS 27 (2008) survives as IAS 27 (2011) *Separate Financial Statements*, only to carry forward the existing accounting requirements for separate financial statements. IFRS 10 provides a single model to be applied in the control analysis for all investees, including entities that currently are SPEs in the scope of SIC-12. In addition, the consolidation procedures are carried forward substantially unmodified from IAS 27 (2008). The Group intends to adopt IFRS 10 in its consolidated financial statements for the annual period beginning on January 1, 2013. The extent of the impact of adoption of IFRS 10 has not yet been determined.

### 6. New standards and interpretations not yet adopted - Continued

#### IFRS 11 "Joint Arrangements"

In May 2011, the IASB issued IFRS 11 Joint Arrangements, which is effective for annual periods beginning on or after January 1, 2013, with early adoption permitted. If an entity applies this Standard earlier, it shall also apply IFRS 10, IFRS 12, IAS 27 (2011) and IAS 28 (2011) at the same time. IFRS 11 replaces the guidance in IAS 31 Interests in Joint Ventures. Under IFRS 11, joint arrangements are classified as either joint operations or joint ventures. IFRS 11 essentially carves out of previous jointly controlled entities, those arrangements which although structured through a separate vehicle, such separation is ineffective and the parties to the arrangement have rights to the assets and obligations for the liabilities and are accounted for as joint operations in a fashion consistent with jointly controlled assets/operations under IAS 31. In addition, under IFRS 11, there is no longer a free choice of equity accounting or proportionate consolidation for joint ventures; the equity method is now required. Upon application of IFRS 11, entities which had previously accounted for joint ventures using proportionate consolidation shall collapse the proportionately consolidated net asset value (including any allocation of goodwill) into a single investment balance at the beginning of the earliest period presented. The investment's opening balance is tested for impairment in accordance with IAS 28 (2011) and IAS 36 Impairment of Assets. Any impairment losses are recognized as an adjustment to opening retained earnings at the beginning of the earliest period presented. The Group intends to adopt IFRS 11 in its consolidated financial statements for the annual period beginning on January 1, 2013. The extent of the impact of adoption of IFRS 11 has not yet been determined.

#### IFRS 12 "Disclosure of Interests in Other Entities"

In May 2011, the IASB issued IFRS 12 *Disclosure of Interests in Other Entities*, which is effective for annual periods beginning on or after January 1, 2013, with early adoption permitted. If an entity applies this Standard earlier, it need not apply IFRS 10, IFRS 11, IAS 27 (2011) and IAS 28 (2011) at the same time. IFRS 12 contains the disclosure requirements for entities that have interests in subsidiaries, joint arrangements (i.e. joint operations or joint ventures), associates and/or unconsolidated structured entities. Interests are widely defined as contractual and non-contractual involvement that exposes an entity to variability of returns from the performance of the other entity. The required disclosures aim to provide information in order to enable users to evaluate the nature of, and the risks associated with, an entity's interest in other entities, and the effects of those interests on the entity's financial position, financial performance and cash flows. The Group intends to adopt IFRS 12 in its consolidated financial statements for the annual period beginning on January 1, 2013. The Group does not expect IFRS 12 to have a material impact on the consolidated financial statements.

#### 6. New standards and interpretations not yet adopted - Continued

#### IFRS 13 "Fair Value Measurement"

In May 2011, the IASB published IFRS 13 Fair Value Measurement, which is effective prospectively for annual periods beginning on or after January 1, 2013. The disclosure requirements of IFRS 13 need not be applied in comparative information for periods before initial application. IFRS 13 replaces the fair value measurement guidance contained in individual IFRSs with a single source of fair value measurement guidance. It defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, i.e. an exit price. The standard also establishes a framework for measuring fair value and sets out disclosure requirements for fair value measurements to provide information that enables financial statement users to assess the methods and inputs used to develop fair value measurements and, for recurring fair value measurements that use significant unobservable inputs (Level 3), the effect of the measurements on profit or loss or other comprehensive income. IFRS 13 explains 'how' to measure fair value when it is required or permitted by other IFRSs. IFRS 13 does not introduce new requirements to measure assets or liabilities at fair value, nor does it eliminate the practicability exceptions to fair value measurements that currently exist in certain standards. The Group intends to adopt IFRS 13 prospectively in its consolidated financial statements for the annual period beginning on January 1, 2013. The Group does not expect IFRS 13 to have a material impact on the consolidated financial statements.

### IAS 1 "Presentation of Financial Statements"

As of January 1, 2013, the Group will be required to adopt the amendments to IAS 1 "*Presentation of Financial Statements*" as it relates to the presentation of other comprehensive income (OCI). The amendments to this standard do not change the nature of the items that are currently recognized in OCI, but requires presentational changes. The adoption of this standard is not expected to have a material impact on the Group's consolidated financial statements.

### IFRS 7 "Financial Instruments: Disclosures"

As of January 1, 2013, the Group will be required to adopt the amendments to IFRS 7, *Financial Instruments: Disclosures*. The amendment requires new disclosures relating to the offset of financial assets and financial liabilities that will enable the users of financial statements better compare financial statements prepared in accordance with IFRS and US Generally Accepted Accounting Principles. The adoption of the amended standard is not expected to have a material impact on the Group's consolidated financial statements.

### 7. Accounts receivables

	March 31, 2012	December 31, 2011
Trade receivables	4,179,534	1,858,527
Other receivables - current portion	89,280	189,141

	Goodwill
Carrying amounts	
At December 31, 2011	\$ 2,777,487
At March 31, 2012	\$ 2,777,487

There was no impairment recognized for the period ended March 31, 2012 and year ended December 31, 2011.

### **11. Share Capital and Reserves**

#### **Issuance of common shares**

On February 3, 2010, 1,500,000 common shares were issued at C\$0.53 (\$0.50) per share upon completion of a non-brokered private placement for gross proceeds of C\$795,000 (\$745,617).

#### **Common shares and preferred shares**

At March 31, 2011, the authorized share capital comprised of unlimited voting common shares without par value and 20,000,000 preferred shares. No preferred shares have been issued to date.

The holders of common shares are entitled to receive dividends as declared from time to time, and are entitled to one vote per share at meetings of the Group. The preferred shares rank equally on winding up. The directors shall by resolution determine the rights and restrictions attaching to the preferred shares prior to their issuance.

### 11. Share Capital and Reserves - Continued

### Accumulated other comprehensive income ("AOCI")

AOCI is the cumulative translation account, which comprises all foreign currency differences arising from the translation of the financial statements of foreign operations.

#### 12. Earnings (Loss) Per Share

(a) Basic earnings (loss) per share

The calculation of basic earnings (loss) per share for the period ended March 31, 2012 was based on the net income attributable to common shareholders of \$610,839 (2011: \$443,991), and a weighted average number of common shares outstanding of 47,364,983 (2011: 47,371,233), calculated as follows:

Weighted average number of common shares for basic earnings (loss) per share calculations:

	Three months ended March 31,				
	2012	2011			
Issued common share at January 1 Adjustment	47,364,983	47,364,983 6,250			
Weighted average number of common shares at March 31	47,364,983	47,371,233			

(b) Diluted earnings per share

For the three months ended March 31, 2012, 4,149,000 share options (2011: 3,149,000) were excluded from the diluted weighted average number of common shares calculation as their effect would have been anti-dilutive.

#### 13. Share Purchase Options and Warrants

#### (a) Stock options

At March 31, 2012, the Group has the following share-based payment arrangements:

The Group has stock option plans that allow it to grant options to its employees, officers, directors and consultants to acquire up to 10% of issued and outstanding common stock. The exercise price of each option shall not be less than the weighted average closing price of the common shares on the TSX Venture Exchange on the last five trading days before the date of the grant. Options have a maximum term of five years and terminate thirty to ninety days following the termination of the optionee's employment. The right to exercise the options will vest in installments over the life of the option as determined at the time the option is granted.

### 13. Share Purchase Options and Warrants - Continued

(a) Stock options - Continued

The terms and conditions relating to the grants of the share options are as follows:

On March 15, 2012, the Group granted incentive stock options of 1,000,000 shares at CND\$0.40 per share expiring on March 15, 2017 which exceeds the market price at the grant date to directors and employees with 200,000 share purchase option vested immediately and another 20% will vest every 12 months.

The number and weighted average exercise prices of the share options are as follows:

			Weighted
		E	Average xercise Price
	Number of Shares	L	Per Share (CND)
Balance, January 1, 2011	3,574,000	\$	0.80
Cancelled/expired during the period	(425,000)		0.28
Balance, December 31, 2011	3,149,000		0.80
Granted during the period	1,000,000		0.40
Balance, March 31, 2012	4,149,000	\$	0.69

There were no stock options granted during the year ended December 31, 2011.

The options outstanding at March 31, 2012 have an exercise price in the range of CND\$0.40 to CND\$1.05 (December 31, 2011: CND\$0.45 to CND\$1.05) and a weighted average contractual life of 2.52 years (December 31, 2011: \$1.99).

There are 3,269,000 options exercisable at March 31, 2012 (December 31, 2011: 3,029,000), which have an exercise price in the range of CND\$0.40 to CND\$1.05 (December 31, 2011: CND\$0.45 to CND\$1.05) and a weighted average contractual life of 1.93 years (December 31, 2011: \$1.94).

Inputs for measurement of grant date fair values

The grant date fair value of share-based payment plans was measured based on the Black-Scholes formula. Expected volatility is estimated by considering historic average share price volatility. The inputs used in the measurement of the fair values at grant date of the share-based payment plan are the following:

### 13. Share Purchase Options and Warrants - Continued

(a) Stock options - Continued

Foir volve of shore ontions and assumptions	Period ended March 31, 2012
Fair value of share options and assumptions	2012
Fair value at grant date (per share)	\$0.37 - \$0.56
Share price at grant date	\$0.40 - \$0.58
Exercise price	\$0.45 - \$1.01
Expected volatility	179.76% - 331.15%
Option life	1 year - 5 years
Expected dividends	\$ -
Risk-free interest rate	1.59% - 2.45%

(b) Share purchase warrants

At March 31, 2012 and December 31, 2011, there were no outstanding warrants.

#### 14. Trade and Other Payables

	March 31,	De	ecember 31,
	2012		2011
Trade payables	\$ 540,605	\$	1,543,776
Non-trade payables and accrued expenses	1,581,536		1,540,946
	\$ 2,122,141	\$	3,084,722

The Group's exposure to currency and liquidity risk related to trade and other payables is disclosed in Note 16.

### 15. Loans Payable

Terms and conditions of outstanding loans were summarized as follows:

		March 31, 2012					
			U.S.	Annual			
		Canadian	dollars	interest	Due		
	RMB	dollars	equivalent	rate	date		
Unsecured loan	500,000	-	79,370	15%	12/31/2012		
Unsecured loan	500,000	-	79,370	15%	7/12/2012		
Unsecured loan	400,000	-	63,496	36%	4/21/2012		
	1,400,000	-	222,236				

	December 31, 2011						
			U.S.	Annual			
	RMB	Canadian dollars	dollars	interest	Due date		
	KMD	uonars	equivalent	rate	uale		
Unsecured loan	500,000	-	79,450	15%	12/31/2012		
	500,000	-	79,450				

### **16. Financial Instruments**

### Credit risk

Exposure to credit risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

	 <b>Carrying amount</b>			
	March 31, 2012	December 31, 2011		
Account receivables	\$ 4,374,236	\$ 2,470,309		
Cash	442,399	2,113,732		
	\$ 4,816,635	\$ 4,584,041		

The maximum exposure to credit risk for accounts receivables at the reporting date by geographic region was:

### 16. Financial Instruments (cont'd)

#### Credit risk (cont'd)

Exposure to credit risk (cont'd)

	 Carrying amount			
	March 31, 2012	December 31, 2011		
China	\$ 4,369,707	\$ 2,468,646		
Canada	4,529	1,663		
	\$ 4,374,236	\$ 2,470,309		

The maximum exposure to credit risk for accounts receivables at the reporting date by type of counterparty was:

	<b>Carrying amount</b>			
		March 31, 2012	December 31, 2011	
End-user customers	\$	4,179,534	\$ 1,858,527	
Others		194,702	611,782	
	\$	4,374,236	\$ 2,470,309	

The Group's most significant customer accounted for \$469,277 of receivables carrying amount at March 31, 2012 (December 31, 2011: \$485,676).

The aging of receivables at the reporting date was:

	March 3	31, 2012	December	31, 2011
	Gross	Gross		
	amount	Impairment	amount	Impairment
Outstanding 0 - 30 days	\$ 1,303,245	\$ -	\$ 317,280	\$ -
Outstanding 31 - 120 days	2,624,144	-	890,964	-
Outstanding 121 - 365 days	206,950	-	90,813	-
Outstanding for more than 1 year	341,909	(102,012)	1,273,367	(102,115)
	\$ 4,476,248	\$ (102,012)	\$ 2,572,424	\$ (102,115)

### 16. Financial Instruments - Continued

#### **Credit risk - Continued**

Exposure to credit risk - Continued

The movement in the allowance for impairment in respect of accounts receivables during the period was as follows:

	2011
Balance at January 1	\$ 63,319
Change during the year	38,796
Balance at December 31	\$ 102,115
	2012
Balance at January 1 Change during the year	\$ 102,115 (103)
Balance at March 31	\$ 102,012

Based on the historic default rates, the Group believes that, apart from the above, no impairment allowance is necessary in respect of accounts receivables other than those specified. The change during the period is contributed from foreign exchange differences.

100% of the Group's revenue for the period ended March 31, 2012 and 2011 were derived from customers located in China. Two (December 31, 2011: Three) customers represent in excess of 10% of accounts receivable at March 31, 2012. Three (2011: Three) customers represent in excess of 10% of total revenue at March 31, 2012.

The allowance accounts in respect of accounts receivables are used to record impairment losses unless the Group is satisfied that no recovery of the amount owing is possible; at which point the amounts are considered irrecoverable and are written off against the financial asset directly. As March 31, 2012, the Group has collective impairments on its loans and receivables of \$102,012. (December 31, 2011: \$102,115).

### 16. Financial Instruments - Continued

### **Currency risk**

The Group's exposure to foreign currency risk was as follows based on notional amounts:

Foreign currency	March 31, 2012			December 31, 2011		
in U.S. dollar equivalent	CAD		RMB		CAD	RMB
Cash at bank	\$ 2,883	\$	439,516	\$	1,018	\$ 2,112,714
Accounts receivables	-		4,179,534		1,663	2,468,646
Accounts receivables (non-current)	4,529		84,751		-	-
Trade and other payables	(409,602)		(1,875,128)		(371,891)	(2,736,085)
Loan payable	-		(222,236)		-	(79,450)
Loan payable - related parties	-		(396,850)		-	(411,551)
Due to related parties	(588,241)		-		(663,367)	-
Gross statement of financial						
position exposure	\$ (990,431)	\$	2,209,587	\$	(1,032,577)	\$ (1,244,725)

#### Sensitivity analysis

A strengthening of the U.S. dollars, as indicated below, against the Canadian dollars ("CAD") and Renmenbi ("RMB") at March 31, 2012 would have increased (decreased) equity and profit or loss by the amounts shown below. This analysis is based on foreign currency exchange rate variances that the Group considered to be reasonably possible at the end of the reporting period. The analysis assumes that all other variables, in particular interest rates, remain constant. The analysis is performed on the same basis for 2011, albeit that the reasonably possible foreign exchange rate variances were different, as indicated below:

U.S. dollars against	Equity					
March 31, 2012 CAD (10% strengthening) RMB (10% strengthening)	\$ \$	-	\$ \$	24,761 55,240		
December 31, 2011 CAD (10% strengthening) RMB (10% strengthening)	\$ \$	-	\$ \$	101,000 135,000		

A weakening of the U.S. dollar against the above currencies at March 31, 2012 and December 31, 2011 would have had the equal but opposite effect on the above currencies to the amounts shown above, on the basis that all other variables remain constant.

### 16. Financial Instruments - Continued

#### Interest rate risk

The fluctuation of interest rate has minimal impact on the Group as most of the financial instruments are not interest bearing.

### Fair values

Fair values versus carrying amounts

The fair values of cash, current accounts receivables, trade and other payables, income tax payables, and loan payables approximate their carrying value due to their short-term nature.

### **17. Determination of fair values**

A number of the Group's accounting policies and disclosures require the determination of fair value, for both financial and non-financial assets and liabilities. Fair values have been determined for measurement and/or disclosure purposes based on the following methods. When applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability.

### (i) Long term accounts receivable

The fair value of long term accounts receivable is estimated as the present value of future cash flows, discounted at the market rate of interest at the reporting date. This fair value is determined for disclosure purposes.

### (ii) Share-based payment transactions

The fair value of the employee share options and the share appreciation rights is measured using the Black-Scholes formula. Measurement inputs include share price on measurement date, exercise price of the instrument, expected volatility (based on weighted average historic volatility adjusted for changes expected due to publicly available information), weighted average expected life of the instruments (based on historical experience and general option holder behavior), expected dividends, and the risk-free interest rate (based on government bonds). Service and nonmarket performance conditions attached to the transactions are not taken into account in determining fair value.

### 18. Financial risk management

The Board of Directors has overall responsibility for the establishment and oversight of the Group's risk management framework. The Group's financial instruments consist of cash, trade and other receivables, due from related parties, long term other receivable, and trade and other payables.

### 18. Financial risk management - Continued

The Group's financial instruments are exposed to the risks described below:

(a) Credit risk

Credit risk is the risk of an unexpected loss if a party to a financial instrument fails to meet its contractual obligations. The Group's credit risk is primarily attributable to cash and accounts receivables. The Group has no significant concentration of credit risk arising from operations. Other receivables mainly consist of an advance to a third party for project development, as well as goods and services tax due from the Federal Government of Canada, interest receivable and amounts advanced to employees and others. Management assesses the credit risk concentration with respect to accounts receivable and other receivables annually and adjusts them according.

(b) Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. At March 31, 2012, the Group had a working capital deficiency of \$1,143,556 (December 31, 2011: \$1,862,874). The Group is focused on generating sales revenue and is actively pursuing additional sources of financing to ensure that it can meet its ongoing operating requirements and planned capital expenditures.

(c) Market risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates and equity prices.

(i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. From time to time, the Group is exposed to short term interest rates through the interest earned on cash. The Group only has debt with fixed interest rates. The Group's current policy is to invest excess cash in short-term deposits with its banking institutions. The Group periodically monitors the investments it makes and is satisfied with the credit ratings of its banks.

(ii) Foreign currency exchange rate risk

Foreign currency exchange rate risk is the risk that the fair value of financial instruments or future cash flows will fluctuate as a result of changes in foreign exchange rates.

The majority of the Group's assets, liabilities, revenues and expenses are denominated in Chinese Renminbi ("RMB"), which was tied to the U.S. dollar and is now tied to a basket of currencies of China's largest trading partners, is not a freely convertible currency. The appreciation of the RMB against the U.S. dollar would result in an increase in the assets, liabilities, revenues and expenses of the Group and a foreign currency gain included in comprehensive income. Conversely, the devaluation of the RMB against the US dollar would result in a decrease in the assets, liabilities, revenues and expenses of the Group and a foreign and expenses of the Group and a foreign currency loss included in comprehensive income.

#### 18. Financial risk management - Continued

- (c) Market risk Continued
  - (ii) Foreign currency exchange rate risk Continued

The Group's functional currency is the Canadian dollar and RMB, respectively, and major transactions are transacted in Canadian dollars and RMB. The Group maintains Chinese RMB bank accounts in China to support monthly forecasted cash outflows. Management believes the foreign exchange risk derived from currency conversions is minimal and therefore does not hedge its foreign exchange risk.

Fluctuation in the value of Canadian dollar relative to US dollar has some impact on the Group's head office financial results. However, such exchange rate fluctuations have not materially affected the overall financial earnings and results on a consolidated basis.

(d) Capital management

The Group manages its capital structure and makes adjustments to it, based on the funds available to the Group, in order to support the development and update of the educational internet portal. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Group's management to sustain future development of the business.

Although the Group has commercialized its teaching training portal in February 2007 and launched its education internet portal in late 2008, the Group is still dependent on external financing to fund its future business plan until it achieves a profitable level of operations. The Group will spend its existing working capital and raise additional amounts as needed. The Group will continue to develop additional features for its education internet portal and will also look into other opportunities to provide educational services provided through the internet if it has adequate financial resources to do so. Acquisition of ZYCY by share exchange is one of the strategies to improve the working capital position of the Group.

The Group's debt to capital ratio at the end of the reporting period was as follows:

	March 31, 2012		De	cember 31, 2011
Total liabilities Less: cash	\$	6,410,218 (442,399)		7,156,738 (2,113,732)
Net debt	\$	5,967,819	\$	5,043,006
Total equity	\$	1,519,181	\$	807,088
Debt to capital ratio		4		6

### 18. Financial risk management - Continued

### (d) Capital management - Continued

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Group, is reasonable.

There were no changes in the Group's approach to capital management during the period ended March 31, 2012. Neither the Group nor its subsidiaries are subject to externally imposed capital requirements.

### **19. Operating segments**

Strategic business units offer different products and services, and are managed separately because they require different technology and marketing strategies.

Due to the size of the Group, the provision of education internal portal services and distribution of educational textbooks and materials were considered in one segment based on the organizational structure, strategies, decision making and the availability of financial information. The Group's CEO reviews internal management reports on at least a quarterly basis.

### **Geographical segments**

The Group's head office is located in Vancouver, British Columbia, Canada. The operations of the Group are primarily in two geographic areas: Canada and China. In presenting information on the basis of geographical information, segment revenue is based on the geographical location of the customers. Segment assets are based on the geographical location of the assets. All of the Group's revenue was generated in China. All goodwill and majority of all of the capital assets were located in China.

A summary of geographical information for the Group's assets and net loss for the period and year were as follows:

Period ended March 31, 2012	Canada			China		Total	
Revenue from external customers Goodwill	\$	-	\$	2,570,769 2,777,487	\$	2,570,769 2,777,487	
Period ended March 31, 2011	Cana	da		China		Total	

### Major customer

Revenues from one customer represents approximately \$1,014,208 (2011: \$871,392) of the Group's total revenues for the period ended March 31, 2012.

### 20. Related parties

All related party transactions are recorded in the normal course of operations on normal commercial terms and conditions and at market rates, which is the amount of consideration established and agreed to by the related parties.

### Key management personnel and director transactions

Directors of the Group control 16.9% percent of the voting shares of the Group.

A number of key management personnel, or their related parties, hold positions in other entities that result in them having control or significant influence over the financial or operating policies of these entities.

The aggregate value of transactions and outstanding balances relating to key management personnel and entities over which they have control or significant influence were as follows:

		Transaction value						
		periods ended						
Director/		March 31,						
officer	Transaction			2012		201	1	
C F Zhou	Salary and benefits	\$	45	,550	\$	47,859	)

Danny Hon	Loan interest payable (i	)				7,976		5,407
·				\$	7	50,830	\$	663,621

(i) During the period ended March 31, 2012 and year ended December 31, 2011, the Group has received short term loans from two directors. The short-term loans were unsecured and due on demand with an annual interest rate of 15%. At March 31, 2012, there was an interest payable balance of \$11,548 owed to directors of the Group.

(ii) The Group engaged a company, which is controlled by Danny Hon, to provide accounting services.
