China Education Resources Inc.
Notes to Condensed Interim Consolidated Financial Statements
(Expressed in U.S. Dollars)
Period Ended September 30, 2017

1. Reporting Entity

China Education Resources Inc. (“the Company”) is a company domiciled in Canada. The address of the Company’s registered office is Suite 300, 515 West Pender Street, Vancouver, B.C., V6B 6H5. The condensed interim consolidated financial statements of the Company as at and for the period ended September 30, 2017 comprise the Company and its subsidiaries (together referred to as the “Group”). The Group provides an education internet portal with educational content, resources and training programs to users in People’s Republic of China (“China”) and distributes educational textbooks and materials developed by the Group to bookstores and schools in China.

2. Going Concern

As at September 30, 2017, the Group has working capital of \$709,012 (December 31, 2016: working capital deficiency of \$1,163,189). In addition, the Group has trade and other payables, advance from a third party, bank loan, loan payables, loan payables - related parties, and due to related parties to be matured within the next twelve months in the amount of \$7,536,752 (December 31, 2016: \$7,142,832). As at September 30, 2017, the Group has cash and cash equivalents balance of \$986,215 (December 31, 2016: \$3,844,356). The appropriateness of using the going concern basis is dependent upon, among other things, the acceptance of the education internet portal by the users to achieve a profitable level of operations by the Group. The outcome of these matters cannot be predicted at this time. Specifically, it is dependent upon the ability of the Group to obtain necessary financing.

The application of the going concern basis of presentation assumes that the Group will continue in operation for the foreseeable future and be able to realize its assets and discharge its liabilities and commitments in the normal course of business. There is, primarily as a result of the conditions described above, significant doubt as to the appropriateness of the use of the going concern assumption. The accompanying consolidated financial statements have been prepared on a going concern basis notwithstanding these conditions.

These consolidated financial statements do not include any adjustments to the amounts and classifications of assets and liabilities that might be necessary should the Group be unable to continue as a going concern. Management of the Group is of the opinion that it will be in position to raise ongoing financing; however, there is no certainty that these and other strategies will be sufficient to permit the Group to continue as a going concern.

3. Basis of Preparation

(a) Statement of compliance

These condensed interim consolidated financial statements have been prepared in accordance with IAS 34 Interim Financial Reporting. It does not include all of the information required for full annual financial statements, and should be read in conjunction with the Group’s audited consolidated financial statements for the year ended December 31, 2016.

3. Basis of Preparation - Continued

(a) Statement of compliance - Continued

The policies applied in these condensed interim consolidated financial statements are based on IFRS issued as of September 30, 2017. These financial statements were authorized to issue by the audit committee and Board of Directors of the Company on November 28, 2017. Any subsequent changes to IFRS that are given effect in the Company's annual financial statements for the year ending December 31, 2017 could result in restatement of these condensed interim consolidated financial statements.

(b) Basis of preparation

These condensed interim consolidated financial statements are presented in U.S. dollars, which is the Group's reporting currency. The Company's functional currency is Canadian dollars in Canada and the functional currency of the Company's subsidiaries in China is Chinese Renminbi ("RMB").

These condensed interim consolidated financial statements have been prepared on a historical cost basis except for financial instruments classified as at fair value through profit or loss and available-for-sale that have been measured at fair value. In addition, these consolidated financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

These condensed interim consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries (collectively, the "Group").

Subsidiaries are fully consolidated from the date of acquisition, being the date on which the Company obtains control and continue to be consolidated until the date when such control ceases. Changes in ownership interest in a subsidiary without loss of control are accounted for as transactions with equity holders in their capacity as equity holders; therefore, no goodwill is recognized as a result of such transactions. A summary of the Company's subsidiaries are as follows:

Name of subsidiary	Country of incorporation	Ownership interest	
		September 30, 2017	December 31, 2016
CEN China Education Network Ltd. ("CEN Network")	Canada	100%	100%
China Education International Inc. (inactive)	BVI	100%	100%
CEN China Education Overseas Corporation (inactive)	BVI	100%	100%

3. Basis of Preparation - Continued

(c) Use of estimates and judgments

The preparation of the consolidated financial statements in conformity with IFRSs requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. On an ongoing basis, management evaluates its judgments and estimates in relation to assets, liabilities, revenues and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

Areas of assumptions and estimates

(i) Allowance for doubtful accounts

The Group extends unsecured credit to its customers in the ordinary course of business but mitigates the associated risks by actively pursuing past due accounts. As at September 30, 2017, allowance for doubtful accounts is \$32,756 (December 31, 2016 - \$31,323) based on management's assessment of credit history with the customers and current relationships with them.

(ii) Deferred taxes

The Group recognizes the deferred tax benefit related to deferred tax assets to the extent recovery is probable. Assessing the recoverability of deferred tax assets requires management to make significant estimates of future taxable profit. In addition, future changes in tax laws could limit the ability of the Group to obtain tax deductions in the future periods. To the extent that future cash flows and taxable income differ significantly from estimates, the ability of the Group to realize the net deferred tax assets recorded at the reporting date could be impacted.

(iii) Share-based payments

Share-based payments are valued using the Black-Scholes Option Pricing Model at the date of grant and expensed in profit or loss over vesting period of each award. The Black-Scholes Option Pricing Model utilizes subjective assumptions such as expected price volatility and expected life of the option. Changes in these input assumptions can significantly affect the fair value estimate.

3. Basis of Preparation - Continued

(c) Use of estimates and judgments - Continued

Areas of judgment

(i) Going concern

Management has applied judgments in the assessment of the Group's ability to continue as a going concern when preparing its financial statements for the period ended September 30, 2017 and year ended December 31, 2016. Management prepares the financial statements on a going concern basis unless management either intends to liquidate the entity or to cease trading, or has no realistic alternative but to do so. In assessing whether the going concern assumption is appropriate, management takes into account all available information about the future, which is at least, but is not limited to, twelve months from the end of the reporting period. Management considered a wide range of factors relating to current and expected profitability, debt repayment schedules and potential sources of replacement financing. As a result of the assessment, management concluded there are significant doubt as to the ability of the Group to meet its obligations as they fall due and, accordingly, the ultimate appropriateness of the use of accounting principles applicable to a going concern.

(ii) Joint Arrangement

Management has applied judgments in assessing whether the strategic cooperation agreement that the Company's subsidiary TTTC entered into with an arm's length party ("Teacher.com.cn") during the year ended December 31, 2014 should be accounted as a joint arrangement. During the assessment, management considered whether the agreement establishes a contractual arrangement that establishes joint control, which requires both parties to reach unanimous consent over decisions about relevant business activities pertaining to this agreement. As a result of the assessment, management concluded that TTTC has sole controls over the relevant activity in its capacity as the operator of this arrangement during the early stage of the cooperation and there is no joint arrangement exists between TTTC and Teacher.com.cn as at September 30, 2017 and December 31, 2016.

4. Significant Accounting Policies

The preparation of financial data is based on accounting principles and practices consistent with those used in the preparation of the audited annual financial statements as at December 31, 2016. The accompanying unaudited condensed interim consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements for the year ended December 31, 2016.

5. New standards and interpretations adopted during the period

IAS 7 Statement of Cash Flows ("IAS 7")

On January 1, 2017, the Company adopted the amendments to IAS 7 pursuant to which entities will be required to provide enhanced information about changes in their financial liabilities, including changes from cash flows and non-cash changes. Adoption of the amendments to IAS 7 did not have a material impact to the consolidated financial statements.

5. New standards and interpretations adopted during the period - Continued

IAS 12 Income Taxes (“IAS 12”)

On January 1, 2017, the Company adopted amendments to IAS 12, which clarifies guidance on the recognition of deferred tax assets related to unrealized losses resulting from debt instruments that are measured at fair value. The Company does not currently measure any of its debt instruments at fair value. Therefore, the implementation of this standard did not have any material impact to the Company’s financial statements.

6. New standards and interpretations not yet adopted during the period

Standards issued but not yet effective up to the date of issuance of the Company’s consolidated financial statements are listed below. This listing is of standards and interpretations issued, which the Company reasonably expects to be applicable at a future date. The Company intends to adopt those standards when they become effective. The Company does not expect the impact of such changes on the consolidated financial statements to be material.

IFRS 9 Financial instruments (“IFRS 9”)

This is a finalized version of IFRS 9 which contains accounting requirements for financial instruments, replacing IAS 39 Financial Instruments: Recognition and Measurement. The standard contains requirements in the following areas:

- Classification and measurement - Financial assets are classified by reference to the business model within which they are held and their contractual cash flow characteristics. The 2014 version of IFRS 9 introduces a ‘fair value through other comprehensive income’ category for certain debt instruments. Financial liabilities are classified in a similar manner to under IAS 39, however there are differences in the requirements applying to the measurement of an entity's own credit risk.
- Impairment - The 2014 version of IFRS 9 introduces an 'expected credit loss' model for the measurement of the impairment of financial assets, so it is no longer necessary for a credit event to have occurred before a credit loss is recognized
- Hedge accounting - Introduces a new hedge accounting model that is designed to be more closely aligned with how entities undertake risk management activities when hedging financial and non-financial risk exposures
- De-recognition - The requirements for the de-recognition of financial assets and liabilities are carried forward from IAS 39.

6. New standards and interpretations not yet adopted during the year - Continued

IFRS 9 Financial instruments (“IFRS 9”) - Continued

The effective date of this new standards has recently been deferred by the IASB to annual periods beginning on or after January 1, 2018. The Company has not yet assessed the impact of this standard or determined whether it will adopt the standard early.

IFRS 15 Revenue from Contracts with Customers (“IFRS 15”)

IFRS 15 deals with revenue recognition and establishes principles for reporting useful information to users of financial statements about the nature, timing and uncertainty of revenue and cash flows arising from an entity’s contracts with customers. Under IFRS 15, revenue is recognized when a customer obtains control of a good or service and thus has the ability to direct the use and obtain the benefits from the good or service. The standard replaces IAS 18, Revenue, and IAS 11, Construction Contracts, and related interpretations. The standard is effective for annual periods beginning on or after January 1, 2017, with early adoption permitted. The IASB has issued an exposure draft that would, if approved defer the effective date to January 1, 2018. The Company has not yet assessed the impact of this standard or determined whether it will adopt the standard early.

IFRS 16 Leases (“IFRS 16”)

In January 2016, the IASB issued IFRS 16, replacing IAS17, “Leases”. IFRS 16 provides a single lessee accounting model and requires the lessee to recognize assets and liabilities for all leases on its balance sheet providing the reader with greater transparency of an entity’s lease obligations. IFRS 16 is effective for annual periods beginning on or after January 1, 2019 with early adoption provided The Company has not yet assessed the impact of this standard or determined whether it will adopt the standard early.

17. Determination of Fair Values

A number of the Group's accounting policies and disclosures require the determination of fair value, for both financial and non-financial assets and liabilities. Fair values have been determined for measurement and/or disclosure purposes based on the following methods. When applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability.

The fair value of the employee share options and the share appreciation rights is measured using the Black-Scholes formula. Measurement inputs include share price on measurement date, exercise price of the instrument, expected volatility (based on weighted average historic volatility adjusted for changes expected due to publicly available information), weighted average expected life of the instruments (based on historical experience and general option holder behavior), expected dividends, and the risk-free interest rate (based on government bonds). Service and non-market performance conditions attached to the transactions are not taken into account in determining fair value.

18. Financial Risk Management

The Board of Directors has overall responsibility for the establishment and oversight of the Group's risk management framework. The Group's financial instruments consist of cash and cash equivalents, trade and other receivables, due from related parties, trade and other payables, advance from a third party and due to related parties.

The Group's financial instruments are exposed to the risks described below:

(a) Credit risk

Credit risk is the risk of an unexpected loss if a party to a financial instrument fails to meet its contractual obligations. The Group's credit risk is primarily attributable to cash and cash equivalents and accounts and other receivables. The Group has no significant concentration of credit risk arising from operations. Management assesses the credit risk concentration with respect to accounts and other receivables annually and adjusts them accordingly.

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

	Carrying amount	
	September 30, 2017	December 31, 2016
Accounts and other receivables	\$ 8,413,260	\$ 3,861,590
Cash and cash equivalents	986,215	3,844,356

18. Financial Risk Management - Continued

(a) Credit risk - continued

The maximum exposure to credit risk for accounts and other receivable at the reporting date by geographic region was:

	Carrying amount	
	September 30, 2017	December 31, 2016
China	\$ 8,412,980	\$ 3,859,212
Canada	280	2,378
	\$ 8,413,260	\$ 3,861,590

100% and 100% of the Group's revenue for the three-month and nine-month periods ended September 30, 2017 and 2016 was derived from customers located in China. Three (December 31, 2016: two) customers represent in excess of 10% of accounts receivable at September 30, 2017. Two (2016: two) customers represent in excess of 10% of total revenue for the period ended September 30, 2017. The Group's most significant customers accounted for \$1,048,627 of receivables carrying amount at September 30, 2017 (December 31, 2016: \$363,977).

(b) Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. At September 30, 2017, the Group had a working capital of \$709,012 (December 31, 2016: working capital deficiency of \$1,163,189). The Group is focused on generating sales revenue and is actively pursuing additional sources of financing to ensure that it can meet its ongoing operating requirements and planned capital expenditures.

(c) Market risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates and equity prices.

(i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. From time to time, the Group is exposed to short term interest rates through the interest earned on cash. The Group only has debt with fixed interest rates. The Group's current policy is to invest excess cash in short-term deposits with its banking institutions. The Group periodically monitors the investments it makes and is satisfied with the credit ratings of its banks.

18. Financial Risk Management - Continued

(ii) Foreign currency exchange rate risk

Foreign currency exchange rate risk is the risk that the fair value of financial instruments or future cash flows will fluctuate as a result of changes in foreign exchange rates.

The majority of the Group's assets, liabilities, revenues and expenses are denominated in Chinese Renminbi ("RMB"), which was tied to the U.S. dollar and is now tied to a basket of currencies of China's largest trading partners, is not a freely convertible currency. The appreciation of the RMB against the U.S. dollar would result in an increase in the assets, liabilities, revenues and expenses of the Group and a foreign currency gain included in comprehensive income. Conversely, the devaluation of the RMB against the US dollar would result in a decrease in the assets, liabilities, revenues and expenses of the Group and a foreign currency loss included in comprehensive income.

The Group's functional currency is the Canadian dollar and the functional currencies of its subsidiaries are RMB. The Group maintains Chinese RMB bank accounts in China to support monthly forecasted cash outflows. Management believes the foreign exchange risk derived from currency conversions is minimal and therefore does not hedge its foreign exchange risk.

Fluctuation in the value of Canadian dollar relative to US dollar has some impact on the Group's head office financial results. However, such exchange rate fluctuations have not materially affected the overall financial earnings and results on a consolidated basis.

The Group's exposure to foreign currency risk was as follows based on notional amounts:

(in US Dollars)	September 30, 2017			December 31, 2016		
	CND	RMB	TOTAL	CND	RMB	TOTAL

18. Financial Risk Management - Continued

(ii) Foreign currency exchange rate risk - continued

The Company is exposed to the financial risk related to the fluctuations of foreign exchange rates. A significant change in the currency exchange rates between the Renminbi (“RMB”) relative to the U.S. dollars, and between the Canadian dollars (“CND”) relative to the U.S. dollars could have an effect on the Company’s results of operations, financial position and cash flows. The Company has not entered into any derivative financial instruments to manage exposures to currency fluctuations.

An increase (decrease) of 10% in the exchange rate between the RMB and the U.S. dollars would have increased (decreased) other comprehensive income by \$163,277 (December 31, 2016 - \$20,842). An increase (decrease) of 10% in the exchange rate between the CND and the U.S. dollars would have decreased (increased) other comprehensive income by \$184,224 (December 31, 2016 - \$159,132).

(d) Fair values

Financial instruments that are measured subsequent to initial recognition at fair value are group into hierarchy based on the degree to which the fair value is observable.

Level 1 - fair value measurements are derived from unadjusted, quoted prices in active markets for identical assets or liabilities. The fair value of cash is based on level 1 inputs of the fair value hierarchy.

Level 2 - fair value measurements are derived from inputs other than quoted prices included in Level 1 that are observable for the asset or liability directly or indirectly.

Level 3 - fair value measurements are derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data.

The fair values of cash and cash equivalents and restricted cash, accounts and other receivables, trade and other payables, bank loan, advance from a third party, due to/from related parties, loans payable - related parties, and loan payables approximate their carrying value due to their short-term nature.

(e) Capital management

The Group manages its capital structure and makes adjustments to it, based on the funds available to the Group, in order to support the development and update of the educational internet portal. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Group's management to sustain future development of the business.

(e) Capital management - continued

Although the Group has commercialized its teaching training portal in February 2007 and launched its education internet portal in late 2008, the Group is still dependent on external financing to fund its future business plan until it achieves a profitable level of operations. The Group will spend its existing working capital and raise additional amounts as needed. The Group will continue to develop additional features for its education internet portal and will also look into other opportunities to provide educational services provided through the internet if it has adequate financial resources to do so. Acquisition of ZYCY by share exchange is one of the strategies to improve the working capital position of the Group.

The Group's debt to capital ratio at the end of the reporting period was as follows:

	September 30, 2017	December 31, 2016
Total liabilities	\$ 9,109,283	\$ 8,972,972
Less: cash in the bank	(986,215)	(3,844,356)
Net debt	<u>\$ 8,123,068</u>	<u>\$ 5,128,616</u>
Total equity (deficiency)	<u>\$ 829,184</u>	<u>\$ (1,065,287)</u>
Debt to capital ratio	9.80	(4.81)

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Group, is reasonable.

There were no changes in the Group's approach to capital management during the period ended September 30, 2017 and year ended December 31, 2016. Neither the Group nor its subsidiaries are subject to externally imposed capital requirements.

19. Operating Segments

Strategic business units offer different products and services, and are managed separately because they require different technology and marketing strategies.

Due to the size of the Group, the provision of education internal portal services and distribution of educational textbooks and materials were considered in one segment based on the organizational structure, strategies, decision making and the availability of financial information. The Group's CEO reviews internal management reports on at least a quarterly basis.

Geographical segments

The Group's head office is located in Vancouver, British Columbia, Canada. The operations of the Group are primarily in two geographic areas: Canada and China. In presenting information on the basis of geographical information, segment revenue is based on the geographical location of the customers. Segment assets are based on the geographical location of the assets. All of the Group's revenue was generated in China. Majority of the capital assets were located in China.

A summary of geographical information for the Group's assets and revenue for the period were as follows:
